DIARY NOTES

DD/S

10 November 1964

1. At the Executive Committee Meeting this morning the Director indicated that he has come to the conclusion that we should have a more formal legislative arrangement with the Congress. Specifically, he thought that the CIA subcommittees of the House and Senate Armed Services Committees should be expanded to include the Chairman and senior minority member of the House and Senate Foreign Relations Committees. He asked Larry Houston to give this suggestion some further thought with the possibility of having the President suggest this change. H

2. Jocko Richardson, ^{25X1A9A} [] and I met with Mr. Kirkpatrick and John Clarke to discuss management training.

a. Matt Baird's memorandum to the Executive Director-Comptroller dated 9 November 1964 was approved with the exception that we will establish one pilot project instead of four. The project will be conducted in the Technical Services Division if [] is willing and reasonably enthusiastic and provided, of course, that Dick Helms approves; otherwise, it will be run in the Office of Finance. Instead of waiting twelve to eighteen months for the project to be completed, we will make an evaluation within three or four months to determine whether to proceed with additional pilot projects. (John Richardson will talk with [] about TSD participation, after which he will get in touch with me. If appropriate, we will then talk with Dick Helms.) 25X1A9A

b. We decided to get ^{25X1A9A} [] back as early as possible, hopefully in February, to run another Phase I of the Senior Management Seminar at [] Mr. Kirkpatrick will arrange for members of the Financial Policy and Budget Committee to attend this Seminar. We will aim for persons at the Office Head level to make up the rest of the class. I pledged DD/S participation and will do everything possible to ensure that the other Deputy Directors contribute people at this same grade level.

All in all, this was a good meeting and, I think, a major step forward in management training.

3. [] and I talked briefly about the possibility of using the present headquarters building at [] H

25X1A6A Center for the new school building. He is going to ask [] to go to [] to look over the situation sometime soon. He was anxious to get the question settled because, if we are going to proceed with the other construction, we should let the contract soon. Of course, if we do not proceed, we have merely poured this much money down the drain. 25X1A9A

5. [] reported that he had sent [] to visit the families of the Office of Communications boys who are being held captive in []. The families were very appreciative. One of the mothers had been quite upset and had written to President Johnson. [] felt that this was a very worthwhile trip and that the families are all on our side, believing now, though they did not before, that the Government is taking a real interest in rescuing their boys.
